DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Response to Amendment

2. Applicant's amendment filed with the RCE on March 27, 2007, has been entered. The specification has been amended as requested. Claims 1-44 have been cancelled and replaced with new claims 45-81.

3. The cancellation of claims 11 and 17 renders moot the double patenting rejection set forth in section 4 of the last Office Action (12/27/06). Additionally, the cancellation of claims 1-44 renders moot the 112, 1st rejections and prior art rejections set forth in sections 5-10 of the last Office Action.

Priority

4. It is noted that the first line of the specification has not been amended to reflect the proper priority documents as set forth in section 2 of the Office Action mailed 01/30/06.

Applicant traverses the assertion that the referenced provisional applications lack adequate

Art Unit: 1771

support for the claimed elastic film and second, discontinuous adhesive layer (Amendment, page 9, 1st – 4th paragraph). Specifically, applicant cites several passages from US Provisional Application 60/403,992, filed August 16, 2002. This argument is unpersuasive since priority was granted to provisional applications 60/403,992 and 60/405473, but not the other three cited provisional applications 60/393,362, 60/416,098, and 60/443,986. From section 2 of the Office Action mailed 01/30/06 (emphasis added):

Applicant's claim for the benefit of a prior-filed application under 35 U.S.C. 119(e) or under 35 U.S.C. 120, 121, or 365(c) is acknowledged. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. [1] as follows:

The later-filed application must be an application for a patent for an invention which is also disclosed in the prior application (the parent or original nonprovisional application or provisional application). The disclosure of the invention in the parent application and in the later-filed application must be sufficient to comply with the requirements of the first paragraph of 35 U.S.C. 112. See *Transco Products, Inc. v. Performance Contracting, Inc.*, 38 F.3d 551, 32 USPQ2d 1077 (Fed. Cir. 1994).

The disclosures of the prior-filed applications, **Application Nos. 60/393,362, 60/416,098, and 60/443,986**, fail to provide adequate support or enablement in the manner provided by the first paragraph of 35 U.S.C. 112 for one or more claims of this application. Specifically, said prior-filed applications fail to provide support for the claimed elastic film and second, discontinuously distributed, adhesive layer.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 61 and 72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
7. Claim 61 is indefinite for the use of the phrase "a not melt polyester web adhesive." The scope of said claim is unclear.
8. Claim 72 recites the limitation "the elastic film" in sections (i), (ii), and (iii) of the claim. There is insufficient antecedent basis for this limitation in the claim. Note the claim positively recites an elastic *layer* rather than an elastic *film*.

Allowable Subject Matter

9. Claims 45-60, 62-71, and 73-81 are allowed. The prior art fails to teach or suggest a flocked article comprising a combination of a thermoset flock adhesive and an elastic film (substrate)
10. Claims 61 and 72 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
